

Expanding the Donor Pool by Changing the Criteria

Thursday, June 16, 3 – 4:00 pm

1 continuing education contact hour for nurses*

Webinar Presenters

David Lee, M.D.
Medical Director, Liver Transplant
and Hepatobiliary Surgery, and
Associate Professor, Loyola Medicine

Dr. Lee has led innovation in optimizing donated organs for transplant, with special focus on liver donation after circulatory death as well as machine perfusion.

Lacey Deloera, MSN, RN, CPTC
Training Coordinator,
Gift of Hope Organ &
Tissue Donor Network

Lacey oversees the education and training of clinical team members with a special focus on maximizing the gift of donation.

HIV+ donor experience

The family of an HIV+ kidney donor will share his story.

*This activity has been submitted to the Ohio Nurses Association for approval to award contact hours. The Ohio Nurses Association is accredited as an approver of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation. (OBN-001-91)

Learn about how:

- The CMS Final Rule of 2020 increases donations and affects the donation process.
- The Hope Act facilitates the HIV+ donation and transplant process.
- COVID-19 infection affects organ donation.
- Ex-vivo perfusion can expand donor criteria.
